

Noviomagus Mini Mill

The Noviomagus Mini Mill guarantees bone chips with an intact trabecular bone structure, because it breaks out chips. The *Extra Fine* and *Extra Extra Fine* milling drums are designed to produce very small bone chips for spinal grafting and small defects. They can be used for plastic surgery, spinal surgery, maxillo-facial surgery and hand-foot surgery. It can mill bone particles in less than 10 seconds.

Advanced benefits

- Milling of bone particles takes less than 10 seconds
- Mills fresh frozen bone
- 2 years guarantee for hospital use
- Two types of milling drums for small chip sizes
 - Extra Fine (3 - 5 mm)
 - Extra Extra Fine (1 - 3 mm)
- No risk of metal abrasion
- Long life-span without wear
- Optimal bone chip size
- Easy to clean

Today's technology guarantees high quality chips
